Important Information
Regarding your Appointment

The insurance companies have very specific guidelines for preventive care. Well woman visits or annual exams are an opportunity to have your preventive physical exam and get your prescriptions for the upcoming year for medications such as birth control. Most insurance companies do not require a referral for this visit even if the plan is a HMO plan.

If you are having a medical problem you will need to schedule a separate appointment to discuss it with the physician in order for us to comply with your insurance company requirements. We apologize for any inconvenience, as we know your time is valuable!

I agree to pay for any and all medical services I receive from the doctors/providers of this practice that my insurance company refuses to pay, for whatever reason. This office will file a claim in my behalf, however if my insurance company denies payment for any reason (e.g. non-covered services, does not pay for preventive medicine visits, my failure to secure a referral from my primary care physician.) I will pay for same upon written/verbal notice of their refusal.
